

Dear Commissioners,

As a US citizen who has lived and traveled in countries with limited democracies, and limited access to real unbiased information, I regard any more concentration of media power as systemic of a failing nation. It is your responsibility to protect the people of this country from the abuses which are sure to result, when too much power reaches the hands of too few individuals.

Thank you for this opportunity and I hope that you really do understand why America is a wonderful place to live. I do.
